

## Dressage Rules

- Any video of a dressage test must be ridden in a correctly measured "arena" of either 20 x 40 or 20 x 60.
- Any surface will be accepted as long as it is safe for rider and horse to be used.
- All dressage videos must be taken from "C" without any interruption in landscape format with sound.
- We will not accept any tests which have been edited.
- Not sure how to measure your dressage arena? Have a look at the drawings below, or watch our videos for a [20x40 arena](#) and a [20x60 arena](#).
